1. Introduction

1.1. Overview

- 1.1.1. This document "eID karte" Trust service policy" defines the procedural and operational requirements that Latvian State Radio and Television Centre (LVRTC) adheres to and requires entities to adhere to when issuing and managing electronic signature certificates and related certificates for authentication for "eID karte" trust service.
- 1.1.2. These certificates promotes use of electronic signatures and electronic identification of natural persons. Certificates are always issued in pairs - each "eID card" containing one authentication certificate and a qualified electronic signature certificate and their corresponding private keys. Each private key is protected by a separate activation data (PIN) and each "eID karte" has one personal unlocking code (PUK code). One person may have only one valid electronic identity card.
- 1.1.3. LVRTC as trust and electronic identification service provider issuing certificates for electronic signature and related authentication certificates is guided by [eIDAS regulation], [FPEIL], [MK not. 558], [MK not. 560], [MK not. 134] and related standards.
- 1.1.4. This Policy is based on "QCP-n-qscd" policy defined in [ETSI EN 319 411-2] and NCP+ policy defined in [ETSI EN 319 411-1].
- 1.1.5. If any requirement specified in this Policy differ from the requirements specified related standards or [CPS], then the documents and requirements specified in those documents should apply to hierarchical order (first in list prevails):
 - 1.1.5.1. [ETSI EN 319 411-2];
 - 1.1.5.2. [ETSI EN 319 411-1];
 - 1.1.5.3. This Policy;
 - 1.1.5.4. [CPS].
- 1.1.6. This Policy is prepared in Latvian language. This Policy May be translated and available in other languages. In case of Policy translation inconsistencies, Policy version in Latvian language prevails.

1.1.7. For "eID karte" service described in this Policy:

1.1.7.1. Electronic signature certificates SHALL be issued as qualified electronic signature certificates according to [eIDAS regulation];

1.1.7.2. Authentication certificates SHALL be issued as electronic identification tool according to [FPEIL]. The qualification of the electronic identification tool is set in the list maintained by the Supervisory body.

1.2. Document Name and Identification

1.2.1. This document is called ""eID karte" Trust service policy"

1.2.2. This Policy is identified by OID: 1.3.6.1.4.1.32061.2.1.2.1

1.2.3. OID is composed according to the contents of the following table:

<i>Parameter</i>	<i>OID reference</i>
<i>ISO</i>	1
<i>Identified Organization</i>	3
<i>DoD</i>	6
<i>Internet</i>	1
<i>Private enterprise</i>	4
<i>IANA registered private enterprise</i>	1
<i>IANA number (LVRTC)</i>	32061
<i>Certification service attribute</i>	2
<i>Type of Policy (Signature)</i>	1
<i>Subtype (eID karte)</i>	2
<i>Version</i>	1

1.2.4. Qualified electronic signature certificates for "eID karte" service issued under QCP-n-qscd policy contain following OIDs:

1.2.4.1. 0.4.0.194112.1.2 (QCP-n-qscd)

1.2.4.2. 1.3.6.1.4.1.32061.2.1.2.1 (this Policy)

1.2.5. Authentication certificates for "eID karte" service issued under NPC+ policy contain following OIDs:

1.2.5.1. 0.4.0.2042.1.2 (NCP+)

1.2.5.2. 1.3.6.1.4.1.32061.2.1.2.1 (this Policy)

1.3. PKI Participants

1.3.1. Certification Authorities

1.3.1.1. Described in Paragraph 1.3.2. of the [CPS]

1.3.2. Registration Authorities

1.3.2.1. Within this Policy, registration authorities are:

1.3.2.1.1. The Office of Citizenship and Migration Affairs for managing documents mentioned in [MK not. Nr.134] (contains "eID karte" service) and related certificates;

1.3.2.1.2. LVRTC Registration authority for managing "eID karte" related certificate status changes.

1.3.2.2. Registration Authorities identify applicants and, verify the documentation accrediting the circumstances appearing in the certificates, and validate and approve requests to issue, revoke and renew certificates.

1.3.3. Subscribers

1.3.3.1. Subscriber is the subject of the certificate issued under this Policy.

1.3.3.2. Subscribers can only be a natural person.

1.3.4. Relying Parties

1.3.4.1. Relying parties are legal or natural persons who are making decisions based on the "eID karte" related electronic signature or authentication certificate.

1.4. Certificate Usage

1.4.1. Appropriate Certificate Uses:

1.4.1.1. "eID karte" related qualified electronic signature certificates are used for creation of Qualified electronic signature based on qualified signature certificate which is attached to or logically associated with other data in electronic form to ensure the latter's origin and integrity.

1.4.1.2. "eID karte" related authentication certificates are used for authentication of Subscriber in web or other data processing systems.

1.4.2. Prohibited Certificate Uses:

1.4.2.1. The use of the Certificates issued under this Policy is prohibited for any of the following purposes:

- 1.4.2.1.1. Unlawful activity (including cyber-attacks and attempts to damage the certificate);
- 1.4.2.1.2. Issuance of new certificates and information on certificate validity;
- 1.4.2.1.3. Use of the electronic signature certificate for signing documents which can bring about unwanted consequences (including signing such documents during testing of the systems).
- 1.4.2.1.4. The use of electronic signature certificates in an automated manner
- 1.4.2.1.5. Subscriber private key transfer to third parties
- 1.4.2.2. Subscriber should not use authentication certificate to create qualified electronic signatures accordingly [eIDAS] requirements.

1.5. Policy administration

1.5.1. Organization Administering the Document

- 1.5.1.1. This Policy is administrated by State Joint stock company "Latvian State Radio and Television Centre" which act as Trust and electronic identification service provider under those Policy

1.5.2. Contacts

State Joint stock company "Latvia State Radio and Television Centre"

<i>Address</i>	Erglu street 7, Riga, LV-1012, Latvia
<i>Trust and electronic identification service provider helpdesk</i>	
<i>Phone</i>	+371 67108787
<i>e-mail</i>	eparaksts@eparaksts.lv
<i>Office</i>	
<i>Phone</i>	+371 67198704
<i>e-mail</i>	lvrtc@lvrtc.lv

1.5.3. Policy Approval Procedures

- 1.5.3.1. Amendments which do not change the meaning of the Policy, such as corrections of misspellings, translation and updating of contact details, are documented in the Versions and Changes section of the present document and the fraction part of the document version number shall be enlarged.

1.5.3.2. In the case of substantial changes, the new Policy version is clearly distinguishable from the previous ones. The new version bears a serial number enlarged by one. The amended Policy along with the enforcement date, which cannot be earlier than 30 days after publication, is published electronically on Service provider's website.

1.5.3.3. All amendments and final version of this Policy are approved by board of LVRTC.

1.6. Definitions and Acronyms

1.6.1. Definitions

Certificate	public key of a user, together with some other information, rendered un-forgable by encipherment with the private key of the certification authority which issued it
Policy	Within this document – "eID karte" Trust service policy"
Registration officer	Performs Subscriber and information validation according to requirements
Registration operator	Approve certificate applications by checking the accuracy of the data
Revocation	Revocation is an irreversible change of the status of issued certificates, which indicates that certificates are no longer usable. Revocation in this Policy also includes the termination of the activity of the electronic identification tool (authentication certificate).
Service provider	LVRTC, acting as Trust and electronic identification service provider
Subject	entity identified in a certificate as the holder of the private key associated with the public key given in the certificate

1.6.2. Acronyms

CA	Certificate authority
CRL	Certificate revocation list

eID	eID card or Identity card of the Republic of Latvia - an electronic identification card is an identity card issued by the OCMA, with which can prove identity and legal status both on-site and remotely - in the Internet environment, as well as to sign documents with a qualified electronic signature
eIDAS	Regulation (EU) No 910/2014 of European Parliament and of the Council of 23 July 2014 on electronic identification and trust services for electronic transactions in the internal market and repealing Directive 1999/93/EC
ETSI	European Telecommunications Standards Institute
EU	European Union
LVRTC	State Joint Stock Company "Latvia State Radio and Television Centre" registration Nr. 40003011203, Address - Ērgļu iela 7, Rīga, Latvija, LV-1012
MK	Latvian Cabinet of Ministers
NCP +	Extended Normalized Certificate Policy
OCMA	The Office of Citizenship and Migration Affairs
OCSP	Online Certificate Status Protocol
OID	Object Identifier
PIN	Personal Identification Number
PUK	Personal unblocking key
PKI	Public Key Infrastructure
RA	Registration authority
QCP-n-qscd	Policy for EU qualified certificate issued to a natural person where the private key and the related certificate reside on a QSCD
QSCD	Qualified electronic Signature/Seal Creation Device
RA	Registration authority

2. Publication and Repository Responsibilities

2.1. Repositories

2.1.1. As described in Paragraph 2.1. of the [CPS]

2.2. Publication of Certification Information

2.2.1. This Policy is published on Service provider's website: www.eparaksts.lv

2.3. Time or Frequency of Publication

2.3.1. As described in Paragraph 2.3. of the [CPS]

2.4. Access Controls on Repositories

2.4.1. As described in Paragraph 2.5. of the [CPS]

3. Identification and Authentication

3.1. Naming

3.1.1. Types of names

3.1.1.1. The Distinguished Name of the any Certificate issued under this Policy SHALL be compiled in accordance with the [Certificate Profile].

3.1.2. Need for Names to be Meaningful

3.1.2.1.1. All the values in the Subject field of a Certificate SHALL be meaningful.

3.1.3. Anonymity or Pseudonymity of Subscribers

3.1.3.1. Service provider do not offer such services.

3.1.4. Uniqueness of Names

3.1.4.1. Service provider SHALL NOT issue the certificate with an identical Subscriber's Distinguished Name to different Subscribers.

3.2. Initial Identity Validation

3.2.1. Method to Prove Possession of Private Key

3.2.1.1. Keys are generated by a Registration Authority (OCMA) and the keys are stored on a QSCD, proof of possession of the private key is by virtue of the trusted procedure of delivery and acceptance of the QSCD and of the corresponding certificate and key pair stored within.

3.2.2. Identification and validation of Organization Identity

3.2.2.1. Not applicable.

3.2.3. Identification and validation of Individual Identity

- 3.2.3.1. Identity proofing and verification of natural person is based on Commission Implementing Regulation (EU) 2015/1502 of 8 September 2015, on setting out minimum technical specifications and procedures for assurance levels for electronic identification means pursuant to Article 8(3) of Regulation (EU) No 910/2014 of the European Parliament and of the Council on electronic identification and trust services for electronic transactions in the internal market.
- 3.2.3.2. Issuing Latvian eID cards and managing related certificates is done by OCMA in accordance with [MK not. 134].
- 3.2.3.3. Authentication of Individual Identity applying to "eID karte" service is done by OCMA.

3.3. Identification and validation for Re-Key Requests

- 3.3.1. Refer to Paragraph 3.2 of this Policy

3.4. Identification and validation for Revocation Request

- 3.4.1. The following may application for end entity subscriber certificate revocation:
 - 3.4.1.1. Subscriber;
 - 3.4.1.2. Service provider.
- 3.4.2. Application for revocation requests can be submitted via e-mail (signed with qualified electronic signature) or visiting corresponding Registration authority.
- 3.4.3. Registration authority will identify applicant and his rights to submit an application. After successful identification, Registration authority will register application.
- 3.4.4. TSP will revoke certificate after revocation application is registered by Registration authority.
- 3.4.5. Time between certificate revocation application registration and the decision to change its status information being available to all relying parties SHALL NOT exceed 24 hours.

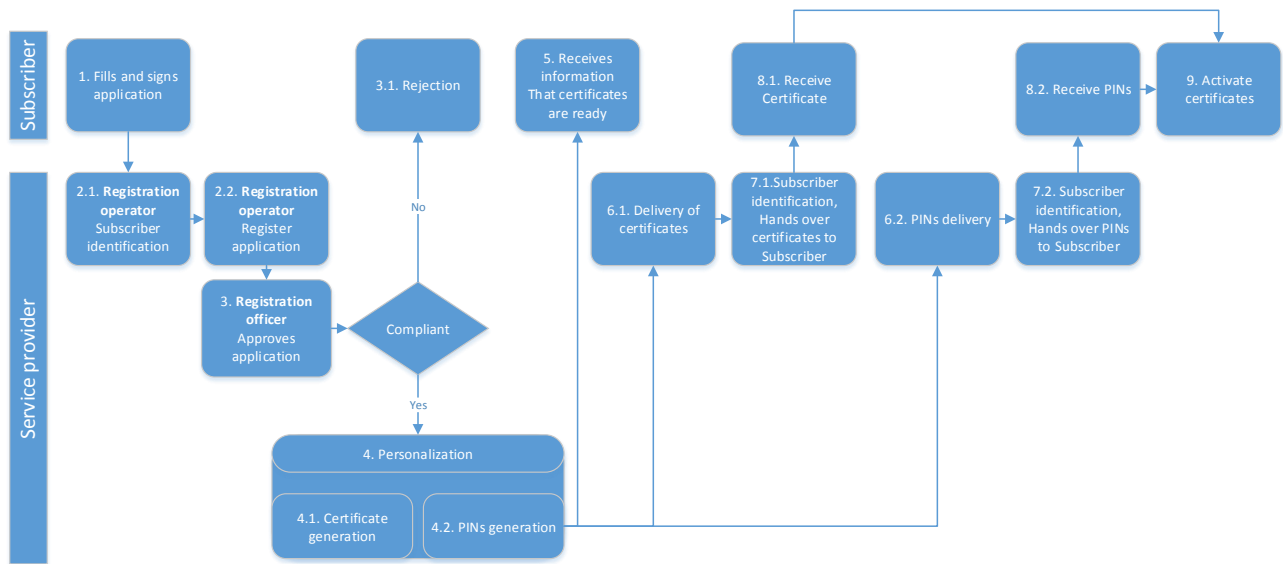

4. Certificate Life-Cycle operational requirements

4.1. Certificate Application

- 4.1.1. Only signed application SHALL be accepted.

4.1.2. Identity validation refer to Paragraph 3.2 of this Policy

4.1.3. Enrollment process:

4.2. Certificate application processing

4.2.1. All applications and applicants SHALL be verified by Registration authority.

4.2.2. All applications SHALL be processed by registration operator and approved by registration officer.

4.2.3. Service provider SHALL refuse to issue a Certificate if the Certificate request does not comply with the technical requirements set in the applicable agreements.

4.2.4. If the Service provider refuses to issue a Certificate, an entity that requested certification SHALL be notified.

4.2.5. All applications will be processed by Service provider in accordance with the applicable laws and agreements.

4.3. Certificate issuance

4.3.1. The Service provider SHALL take measures against forgery of certificates, and in cases where the Service provider generates the subject's key pair, guarantee confidentiality during the process of generating such data.

4.3.2. The procedure of issuing the certificate SHALL be securely linked to the associated registration, certificate renewal or rekey, including the provision of any subject-generated public key.

4.3.3. All certificates are issued according to [Certificate profiles].

4.3.4. In case, where Service provider generates subject's keys in QSCD, QSCD containing subject's private key SHALL be securely delivered to the registered subject. Detailed procedure are described in paragraph 4.3.4. of the [CPS].

4.4. Certificate acceptance

4.4.1. Before entering into a contractual relationship with a subscriber, the Service provider SHALL inform the subscriber of the general terms and conditions.

4.4.2. Service provider SHALL publish general terms and conditions in Service provider's web page www.eparaksts.lv

4.4.3. The Service provider SHALL record the signed agreement with the subscriber.

4.5. Key Pair and Certificate Usage

4.5.1. Main certificate usage is described in Paragraph 1.4. of this Policy.

4.5.2. Subscriber SHALL follow subscriber obligations provided in agreement, general terms and conditions, this Policy and [CPS].

4.5.3. All subject keys SHOULD be generated using a key length and algorithm as specified in [ETSI TS 119 312].

4.5.4. Subscriber SHALL notify the Service provider without any reasonable delay, if any of the following occur up to the end of the validity period indicated in the certificate:

4.5.4.1. the subject's private key has been lost, stolen, potentially compromised;

4.5.4.2. control over the subject's private key has been lost due to compromise of activation data (e.g. PIN code) or other reasons;

4.5.4.3. or inaccuracy or changes to the certificate content, as notified to the subscriber or to the subject.

4.6. Certificate Renewal

4.6.1. The Service provider SHALL check the existence and validity of the certificate to be renewed and that the information used to verify the identity and attributes of the subject are still valid.

4.6.2. If any of the Service provider terms and conditions has changed, these shall be communicated to the subscriber and agreed by signing new agreement.

4.6.3. The Service provider SHALL issue a new certificate using the subject's previously certified public key, only if its cryptographic security is still sufficient for the new certificate's validity period and no indications exist that the subject's private key has been compromised nor that the certificate has been revoked due to any other security breach.

4.7. Certificate Re-Key

4.7.1. Certificate re-key process are done in accordingly to Paragraphs 3.2., 4.1., 4.2., 4.3. and 4.4. of the [CPS].

4.7.2. In the case of certificates Re-Key old certificates are revoked.

4.8. Certificate Modification

4.8.1. Certificate modification can be done only after subscriber's identification accordingly to Paragraph 3.2. of the [CPS].

4.8.2. If any certified names or attributes have changed or contains an errors, incorrect certificate SHALL be revoked, the registration information SHALL be verified, recorded, agreed to by the subscriber in accordance with this Policy.

4.9. Certificate Revocation and Suspension

4.9.1. Service provider SHALL revoke certificates in a timely manner based on authorized and validated certificate revocation requests.

4.9.2. Service provider SHALL revoke certificates if any of the following events occur:

4.9.2.1. Received and validated revocation application;

4.9.2.2. The subject's or Service provider's CA private key has been compromised or if the subject or a third party has misused the data.

4.9.2.3. When a legal or administrative order has been issued to this effect.

4.9.2.4. Change in the data supplied in order to obtain the certificate or modification in the circumstances verified for certificate issuance

4.9.2.5. One of the parties breaches its obligations.

- 4.9.2.6. An error is detected in the certificate issuance procedure, either because one of the prerequisites has not been satisfied or due to technical problems during the certificate issuance process.
- 4.9.2.7. Technical failure in the issuance and/or distribution of certificates or associated documentation.
- 4.9.2.8. a natural person has provided false or misleading information about his or her identity.
- 4.9.2.9. Three months have elapsed from the time the certification is requested to time it is collected.
- 4.9.3. Requestors of revocation and available channels for processing revocation applications refer to Paragraph 3.4. of this Policy.
- 4.9.4. Notification SHALL be send to subscriber about certificate revocation when Service provider revokes a certificate.
- 4.9.5. Any relaying party can check certificate status via published CRLs or OCSP service provided by Service provider.
- 4.9.6. Certificate suspensions are described in paragraph 4.9.6. of the [CPS].

4.10. Certificate Status Services

- 4.10.1. Service provider provides revocation status information via published CRLs or OCSP service with availability defined in Paragraph 2.1. of the [CPS].
- 4.10.2. The revocation status information are publicly and internationally available.

4.11. End of Subscription

- 4.11.1. When it expires or when has been revoked, the certificate is not valid for use.

4.12. Key Escrow and Recovery

- 4.12.1. Key escrow is not allowed.

5. Facility, management, and operational controls

5.1. Physical Controls

- 5.1.1. Described in Paragraph 5.1. of the [CPS]

5.2. Procedural Controls

- 5.2.1. Described in Paragraph 5.2. of the [CPS]

5.3. Personnel Controls

5.3.1. Described in Paragraph 5.3. of the [CPS]

5.4. Audit Logging Procedures

5.4.1. Described in Paragraph 5.4. of the [CPS]

5.5. Records Archival

5.5.1. Described in Paragraph 5.5. of the [CPS]

5.6. Key Changeover

5.6.1. Described in Paragraph 5.6. of the [CPS]

5.7. Compromise and Disaster Recovery

5.7.1. Described in Paragraph 5.7. of the [CPS]

5.8. CA Termination

5.8.1. Described in Paragraph 5.8. of the [CPS]

6. Technical security controls

6.1. Key Pair Generation

6.1.1. The subject keys must be generated pursuant to minimum algorithm and key length recommendations defined in [ETSI TS 119 312].

6.1.2. Keys for qualified electronic signature certificates issued under QCP-n-qscd SHALL be generated only in QSCD.

6.1.3. Keys are generated by the OCMA, the keys SHALL be handed over to the Subscriber in person.

6.1.4. Allowed key usage flags SHALL be set as described in the [Certificate Profile]

6.2. Private Key Protection and Cryptographic Module Engineering Controls

6.2.1. Keys for qualified electronic signature certificates on QSCD for "eID karte" service issued under policy QCP-n-qscd SHALL be generated on a device certified in accordance with [eIDAS regulation] and [ETSI EN 419 211].

6.2.2. Subscribers is responsible for his/her private key security and management.

6.2.3. The subscriber is responsible for he's PIN code and smart card retention only under his control. It is prohibited to transfer smart card and / or PIN codes to a third party.

6.2.4. Subscriber has the responsibility to immediately revoke their certificates, if the Subscriber PIN codes and / or smart card is lost or there is reasonable suspicion that the certificates are to be used without the Subscriber's knowledge and consent.

6.2.5. PIN requirements:

6.2.5.1. for authentication key – at least 4 digits;

6.2.5.2. for signature key – 6 digits;

6.2.6. PUK should contain at least – 6 digits.

6.3. Other Aspects of Key Pair Management

6.3.1. The validity period of Subscriber certificates is up to five (5) years.

6.4. Activation Data

6.4.1. Subscriber keys is generated by the OCMA, activation codes (PIN and PUK codes) SHALL be handed over in person to the Subscriber.

6.4.2. Subscribers should protect their private key activation data (PIN and PUK codes).

6.5. Computer Security Controls

6.5.1. Service provider computer security controls are described in Paragraph 6.5. of the [CPS].

6.5.2. Subscribers is responsible for applying reasonable protections on their devices and equipment.

6.6. Life Cycle Technical Controls

6.6.1. Service provider life cycle technical controls are described in Paragraph 6.6. of the [CPS]

6.6.2. No Conditions for subscribers

6.7. Network Security Controls

6.7.1. Service provider network security controls are described in Paragraph 6.7. of the [CPS].

6.7.2. No provisions for subscribers.

6.8. Time-Stamping

6.8.1. Not in the scope of the present document

7. Certificate, CRL, and OCSP profiles

7.1. Certificate Profile

7.1.1. Certificate SHALL be compliant with the profile defined in the [Certificate Profile].

7.2. CRL Profile

7.2.1. CRL SHALL be compliant with the profile defined in the [Certificate Profile].

7.3. OCSP Profile

7.3.1. The OCSP responses SHALL be compliant with the profile defined in the [Certificate Profile].

8. Compliance audit and other assessment

8.1.1. Described in Paragraph 8. of the [CPS]

9. Other business and legal matters

9.1. Fees

9.1.1. Described in Paragraph 9.1. of the [CPS]

9.2. Financial Responsibility

9.2.1. Described in Paragraph 9.2. of the [CPS]

9.3. Confidentiality of Business Information

9.3.1. Described in Paragraph 9.3. of the [CPS]

9.4. Privacy of Personal Information

9.4.1. The Service Provider ensures the privacy of the data of the natural persons in accordance with the Privacy Policy.

9.4.2. The Privacy Policy is published on the Service provider's website www.eparaksts.lv.

9.5. Intellectual Property Rights

9.5.1. Described in Paragraph 9.5. of the [CPS]

9.6. Representations and Warranties

9.6.1. Described in Paragraph 9.6. of the [CPS]

9.7. Disclaimers of Warranties
